

NEWS RELEASE

7 out of 10 of our Nepal Students Gain Employment Within Weeks Of Graduating!

05 December 2006, Singapore – Informatics is proud to announce that our Nepalese graduates from the International Diploma in Computing managed to gain employment within weeks of graduating!

Their achievements have greatly boosted Informatics' standing as a provider of quality lifelong learning in the global arena. We would like to congratulate them for the well deserved career opportunities and wish them success in their future endeavors.

"I've completed my IDNC (International Diploma in Networks and Cyber Security) from Informatics Kathmandu. I have benefited a lot from the academic and professional modules like Java Programming, Network Essentials and System Administration of IDNC.

I was employed in a support department of a renowned ISP within a short period of application because of the comprehensive and practical exposure in networking and cyber security. This strongly proves the significance of the IDNC provided by the Informatics.

As with the present context in IT, security concern is indispensable for all companies and organizations. Informatics provides the security relevant course in partnership with EC- council, a leading security provider over the world to various multinational companies.

I hope that Informatics Academy will launch other beneficial courses which are in great demand and students will get quick output from their study and wish to encourage others to join Informatics. I suggest all the IT interested students and personnel to join Informatics academy, which have numerous opportunities in today's competitive world." Ashok Gautam – International Advanced Diploma in Networks and Cybersecurity.

"Studying IDNC at Informatics is the best decision for me. The knowledge gained from this course is result oriented and helps to build professionalism.

After completing my IDNC, I got a job as a system support officer at COMPRO Computer Pvt. Ltd, which is a leading IT company in Nepal specialized in computer sale, support and software development. The teachers of Informatics are very helpful, supportive and the learning environment is very friendly, which made me get the right job after completing my diploma and handling my job smoothly.

Informatics not only provides globally accepted certification but makes genuine, capable and competitive candidate." Kritagya Shrestha - International Advanced Diploma in Networks and Cybersecurity.
