

A Step towards Enhanced Communications

Singapore, 26 October 2006 – In an effort to continuously value-add, the academic quality management team is organising communications sessions for students and franchisees of Informatics. These sessions will take place in the next few months and will be conducted via IVC text chat and Interwise respectively.

Students will find their sessions very useful as e-revisions and course orientation will be conducted via this platform. These sessions will be run according to the different programmes. In addition, to ensure that students participate in the e-revision sessions, registration charges will be waived. Students can now enjoy this service *free of charge*.

As for centres, for the next few months, the subject matter will be on exam de-brief. Here, facilitators will touch on areas such as examiners' feedback, module/program pass rate analysis, as well as strategies to improve. Again, these sessions will be run based on respective programmes and will be conducted via the Interwise communication platform.

For details on the various communication sessions, kindly refer to the attached file.
