

Informatics Alumni Can Expect Better Things to Come Their Way

23 April 2007, Singapore – As part of the revitalization of Informatics Global Alumni (IGA), Informatics Global Alumni Committee has been actively coming up with promotions and activities for the benefits of its alumni members.

Effective Stress Management & Meditation marked the very first online seminar organised. It was delivered online via interwise by respected instructors in their own right. Participants were informed of the many benefits of meditation and how it can help manage stress. During the session, participants were also able to post questions.

Over the next few months, several other interesting seminars have been lined up. Free Yoga sessions for beginners are among the activities planned exclusively for our alumni. Also in the pipeline is an academic talk as well as a 'Resume Makeover' service to help increase graduates' chance of getting jobs.

"We will continue to organise interesting and useful seminars/activities for our alumni. We want to inject more life into our alumni association by regularly organising events for our alumni to enjoy. In time to come, we hope to rope in our alumni members to help run the alumni club." Ms Ray Nah – Informatics Global Alumni, Chief Committee.
