

PRESS RELEASE
(For Immediate Release)**INFORMATICS ACHIEVES 4-YEAR EDUTRUST
CERTIFICATION**

SINGAPORE, 13 December 2016 – SGX Mainboard-listed Informatics Education Ltd (“Informatics” and together with its subsidiaries, the “Group”), today announced that its subsidiary, Informatics Academy Pte Ltd (“Informatics Academy”), which runs the Group’s school operations in Singapore, has attained a 4-year EduTrust Certification.

The EduTrust Certification is a voluntary quality assurance scheme administered by the Committee for Private Education (“CPE”), part of SkillsFuture Singapore.

The successful attainment of the 4-year EduTrust Certification is a resounding mark of assurance to Informatics’ various stakeholders, including its students and partners.

With this affirmation of Informatics Academy’s quality, the Board is optimistic that Informatics is well-positioned for future growth.

About Informatics Education Ltd

Informatics Education Ltd, founded in 1983, has over 30 years of experience in global education and is the first private lifelong learning company to obtain a listing on SGX Mainboard in May 1993. Over the years, Informatics Education together with its subsidiaries, Informatics Academy, Informatics Executive Education, Informatics Global Campus, NCC Education UK and its regional country office in Hong Kong have built a strong track record for quality programmes and training services for individuals, institutions and corporations.
